

SPRING 2021 COVID-19 CHECKLIST

In an effort to help assist our member clubs through the changing COVID-19 landscape, NNESSL has outlined a list of items each member club should consider for the Spring 2021 season:

- Club protocols for parents/players/coaches to address overall expectations
- General safety plan for practices and games
- Check-in regimen for practices/games, including temperature and screening questions
- Training program for coaches regarding meeting State and CDC guidelines
- Provide supplies/support for coaches and parents
- Meeting with coaches to discuss protocols
- Host virtual meetings with parents to review protocols
- Confirm any town requirements for the use of fields
- Waiver for all parents/participants/coaches (examples from other NNESSL clubs are available)

This list is not exhaustive and is only meant as a suggestion of what each club should consider to address in preparation for the upcoming soccer season.
